

# NAP FOR DISASTER RISK REDUCTION

We acknowledge the Traditional Owners of the lands and pay respect to their Elders

## GOALS:

- Reduce existing risk
- Prevent new risks
- Have the information needed to do this

We commit to aim to embed traditional knowledge and value into the NAP

## Yarning Circles

"are more than just a story or conversation, but a structure cultural activity as a valid & rigorous methodology for knowledge production, inquiry and transmission..."

SANDTALK - DR TYSON YUNKAPORTA

## Plenary Highlights

Creating information for decision makers across all levels more accessible & transparent

We need to support 'bridging/boundary orgs. that can collaborate across levels of Gov., business, community and research.

Connecting social and community back into State Government Agencies & Emergency mgmt to show existing measurements & ROI.

No Alignment — **TENSIONS** — Bureaucratic Alignment (leaves out voices)

Will need to be deeply considered.

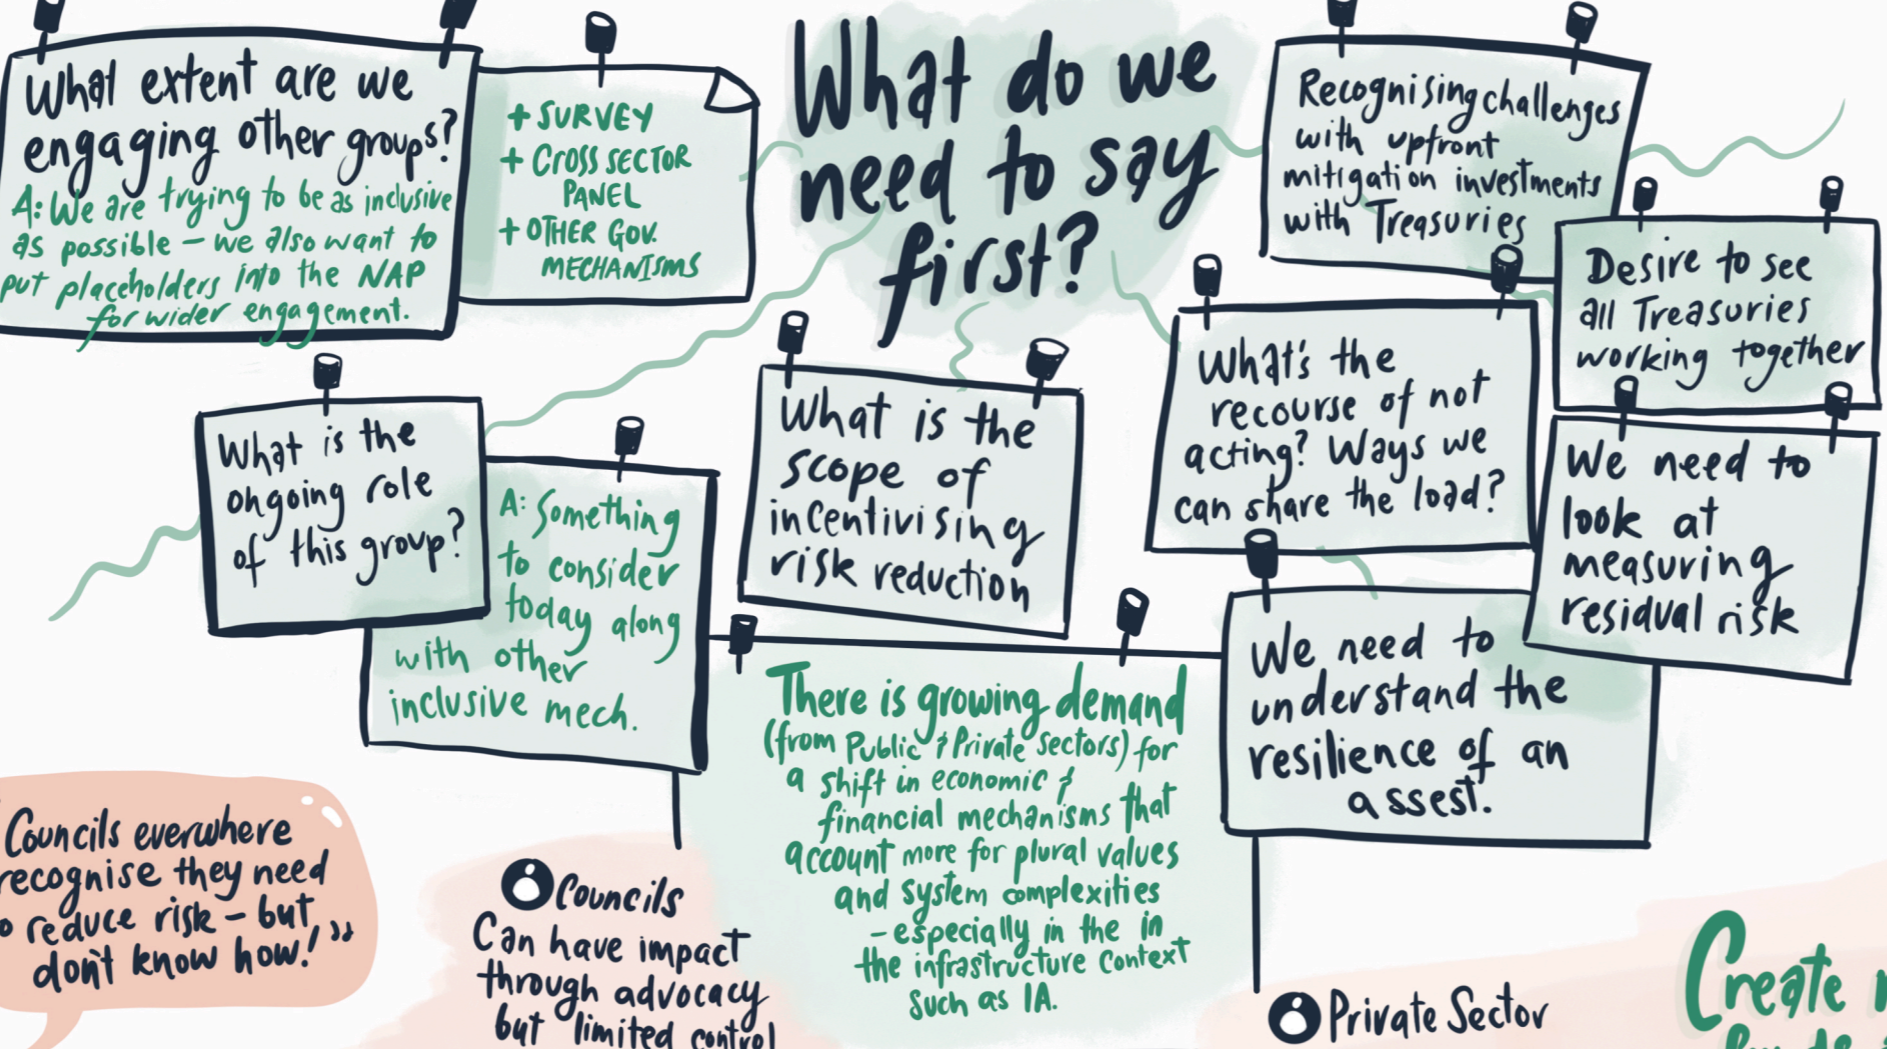

NAP Needs to create the enabling environments not only focus on the innovation projects.

Invest in a PROCESS

Help investors reframe their appetite

EVERY PROJECT IS AN OPPORTUNITY FOR DRR

A need for common frameworks to explore metrics, ROI & build Capability.

"Councils everywhere recognise they need to reduce risk - but don't know how!"

Align planning arrangements between jurisdictions and across sectors...

Develop a consistent method for understanding VALUE FROM AN ECONOMIC, SOCIAL, NATURAL & BUILT FORMS ACROSS AUSTRALIA

These need to be built to Govern 2050.

Councils Can have impact through advocacy but limited control to impose sustainable requirements

E.g. Clear performance measures for DRR

Understand the DIFFERENCE between alignment and an enabling environment THAT GIVES VOICE

Leadership is critical

Focusing solely on alignment risks removing opportunities for experimentation and voice of Councils.

Change the balance sheets of developers.

Best practice guidelines

EXPERTS

Overcome specific advice not being tracked and 'whistle blower' mentality that can block further work.

Build competencies, capability and confidence (individual & collectively) to invest in DRR...

BRING RISK IN EARLIER IN PROCESSES

Private Sector Need to invest in resilience early

PRIVATE SECTOR NEED INFORMATION & MAKE COMMITMENT

RESILIENT ★★★★★

Has value to attract capital and is a spark for change!

Mandate engagement with communities who rely on critical infrastructure AND REPORT ON SPECIFIC OBLIGATIONS

Eg. Comment on consequences of failure

Create novel investment funds and vehicles for DRR (public & private)...

Identify the resilient projects that need funding.

Just be BRAVE & take the risk to take, build and demonstrate & NOVEL APPROACH.

HOW DO WE STOP DEVELOPERS PARSING ON

Change the Market demands

Legal accountability

Insurers

## Today's Focus 6 Impact Areas

Exploring the WHO & HOW.

PART 2 15/16/22

DEEP DIVE TOPIC THREE HOW MIGHT WE ACCOUNT FOR ACCOUNT FOR THE REAL COSTS OF RISKS IN FINANCIAL SYSTEMS AND INCENTIVISE OPPORTUNITY FOR RISK REDUCTION
