

Align and Unifying Efforts

TYSON YUNKAPORTA
SPEAKER #5

Welcome to Country = Where are you going? > Where are you from?

IS A PROTOCOL FOR GOVERNANCE

PROTOCOL. YOUR INTENT. PLACE IN TIME. ACKNOWLEDGE THE ANCESTORS

INNOVATION ISN'T ALWAYS BETTER FASTER & CONVENIENT

ONLY A FEW HUNDRED YEARS AGO
We were all connected to our environment

We have stories like the Tower of Babel of large sedentary people that collapse.

We need to get back & embed back into the environment to find balance.

OUR ENEMY DOESN'T CARE & WANT TO EXTRACT MORE

THEY ARE BETTER: AT SYSTEM THINKING & FUNDED WITH DARK MONEY

Studies show mixed results but First Nations know that fish oil is only medicinal when the yellow flowers bloom

INFLECTION POINTS
We needed to all do our jobs better!

AND ASK OURSELVES IF WE NEED TO CONTINUE THE BIZARRE THE BIZARRE CITY EXPERIMENT BECAUSE OF ECONOMIC NEED?

Built in the most vulnerable places

People need to move & are now constrained

Governance isn't agile. Our Enemy can be because they don't care!

How can we do better? Think about DEEP TIME

DR. MICHELLE MALONEY
SPEAKER #6

DRAFT ACTION:

Embed Caring for Country

Invest in place based processes

Build Competency of youth

Formalise broader values

of course!

Bottom up the way to go!

living in a crazy world

Be adaptive

LANDSCAPE OF DEATH - A FAILURE TO MANAGE

OUR RELATIONSHIP WITH THE LIVING WORLD

What can we do about it? Move away from Euro-tinking.

CHALLENGE THE CULTURE

HUMAN CENTRED LAW = NATURE IS HUMAN PROPERTY

EXTRACTIONIST & MATERIAL GROWTH

Australian Earth Laws
MOVE
FROM HUMAN CENTRED DESIGN TO AN EARTH CENTRED APPROACH

THINK ABOUT DEEP TIME - IN A BLEEP IN TIME

How do we, members of the lost white tribes (who keep moving & taking) sit still and live in relationship to nature?

Systems thinking is just Mother Earth telling us things are changing - we just need to change with her. Earth Thinking challenges what lays underneath our systems.
