

The National Burning Project has brought together inter-related aspects of prescribed burning across Australasia to design guiding frameworks and principles for a more holistic and consistent approach to prescribed burning. The project has delivered a suite of products that informs all levels of prescribed burning.

SYNOPSIS

A great resource summarising the guidelines and frameworks developed by the National Burning Project as simple and ready-to-use brochures.

SYNOPSIS

NATIONAL POSITION

The National Position articulates a nationally agreed position on prescribed burning and establishes principles for the development and implementation of prescribed burning policies and programs.

AN APPROACH TO OBJECTIVES SETTING

A tool for clearer identification of costs and benefits when analysing competing objectives in planning for prescribed burning.

BEST PRACTICE GUIDELINES

Strategic

Operations

RISK FRAMEWORKS

Operations and safety

Smoke and GHG

Fuel hazard

Ecological

MEASURING PERFORMANCE

Objectives & monitoring

Performance measures

The frameworks and principles identified in these documents will be valuable to practitioners, planners and land managers with an interest in planning or undertaking prescribed burning in the best possible way.

These reports build and present frameworks that can be adopted by practitioners and agencies to facilitate improved approaches and greater appreciation of risks associated with undertaking prescribed burning.

A framework and set of performance measures for evaluating prescribed burning against desired objectives.

BEST PRACTICE SYNOPSIS

Process map
Step-by-step best practice guide for prescribed burning, from strategic planning through to burning implementation.

Best practice principles
Best practice principles for prescribed burning summarised into a ready-to-use synopsis for the benefit of prescribed burning professionals.

RISK MANAGEMENT SYNOPSIS
The risk management framework for prescribed burning summarised into a ready-to-use synopsis for the benefit of prescribed burning professionals.

PROGRAM LOGIC
Diagrammatic summary of the rationale behind prescribed burning.

TRAINING MANUALS

These learner resources provide instruction and theory that can be used by students or by instructors for lesson planning.

- Assist with prescribed burning
- Simple prescribed burns
- Complex prescribed burns

TOOLBOX

The National Tool Box is a repository of existing decision support tools that can aid in prescribed burning.

OVERVIEW

This report is a very useful introduction and overview of prescribed burning in Australasia and the evidence base that underpins the use of planned fire.

BEST PRACTICE REVIEW

This report provides a detailed account of the prescribed burning practices that are considered to be examples of best practice.

SCIENCE REVIEW

Reviewing science, practical and Traditional Owner knowledge around the use of prescribed burning as a land management tool.

CAPABILITY REVIEWS

Training

Resources

A review of prescribed burn training and resource capability to aid in improving training and resource sharing outcomes.
